

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Cricket Legacy

App URL:
https://play.google.com/store/apps/details?id=com.coverdrive.cricket

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to gather comprehensive feedback on the app's functionality and user experience. Additionally, we reached out to some of our target users, cricket enthusiasts and gamers, to obtain real-world insights from the intended audience.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged by providing valuable feedback on gameplay mechanics, user interface, and overall experience. Their insights led to crucial

adjustments, ensuring a more immersive and enjoyable cricket simulation, ultimately enhancing user retention and satisfaction.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for optimized ASO, integrated privacy policy access, and a dynamic walkthrough for new users. Feedback was collected through surveys, in-app questionnaires, and direct communication, ensuring a comprehensive understanding of user needs.

---

5) Who is the intended audience for your app?

Cricket Legacy targets cricket fans and gamers who aspire to create and manage their own cricket careers or clubs. It appeals to both casual players and dedicated enthusiasts looking for an engaging cricket simulation experience with strategic depth.

---

6) Describe how your app provides value to the users.

Cricket Legacy offers users a unique opportunity to create cricketers, manage clubs, and make strategic decisions that shape their careers. The

immersive gameplay, combined with the thrill of cricket management, provides entertainment and a sense of achievement for fans of the sport.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We optimized the app description for ASO by incorporating relevant keywords, integrated the privacy policy directly within the app for a seamless experience, and developed a dynamic walkthrough for new users, enhancing usability and user engagement significantly.

---

9) How did you decide that your app is ready for production?

After thorough testing phases and implementing critical feedback from diverse testers, we ensured the app is stable, user-friendly, and fully optimized for the target audience, making it ready for a successful launch on Google Play.

---

10) What did you do differently this time?

This time, we focused on optimizing the app for ASO, integrated user-friendly features like the privacy policy access, and introduced a dynamic onboarding experience. These enhancements directly address user needs and improve overall satisfaction, making the app production-ready.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
